

## **Semi Mobile Crushing & Screening Plant**

We are the leading organization in the industry, highly engaged in manufacturing and supplying the best quality range of Semi Mobile Crushing And Screening Plant. The provided plant ensures a cost-effective method for fulfilling low quantity or limited time crushing requirements such as a road construction project or patch repair works. The offered plant is carefully assembled by our highly experienced professionals using the modern technology. Offered plant is highly appreciated by our clients owing to its easy installation and long service life.

Semi Mobile Crushing Plants are built ready-mounted on their own travel gear. Semi-mobile plants comes ready to operate with its own feed hopper, feed conveyor, discharge conveyor and material transfer belt. The size and design of the crusher naturally depends upon the work that it is intended and always to be recommended when a change of location in long periods is required in order to optimize the raw material transportation- and operational-costs of the quarry department.

### **Features:**

- Less maintenance
- Long service life
- Easy to install

### **Product Description:**

Such plants can be tailor made to suit factors such as application, capacity and site conditions. Careful static and dynamic load analysis is undertaken by our highly experienced design team while designing such plants, also keeping in mind the mobility factor. This type of a plant primarily consists of a jaw crusher (single or double toggle) and Screen (vibrating or rotary type) mounted on a trolley, below which steel or pneumatic wheels are provided for mobility. Small belt conveyor (s) may also be incorporated, if needed. The trolley, fabricated of heavy steel sections, also has jacks for parking during running of the plant, for the purpose of with standing the heavy shock load. Plant can be designed to run by electric motor or clutch mounted

oil engine. View has the distinction of supply of highly successful Semi Mobile Crushing units to a number of reputed construction contractors based in India.
